TRAINING

Corizo   **10 2022 – 04 2023**
Web Development

- During my internship at Corizo, I specialized in web development within the domain of the company. I gained practical experience in designing and building websites, focusing on aspects such as front-end development, user interface design, and responsive web design principles. My tasks included creating interactive and visually appealing web pages, optimizing website performance, and implementing various features to enhance user experience. Through this internship, I honed my skills in HTML, CSS, JavaScript, and other relevant web technologies, while also gaining valuable insights into the workflow and requirements of a professional web development environment
